04056301	5 Sep 05 to 21 Nov 05	MMedSc Core Module: PATH6300 General Cytopathology (Total: 20 hrs)	Prof Annie NY CHEUNG	There is a universal demand in qualified laboratory personnel in cytopathology. In Hong Kong, such demand is accentuated by the implementation of the population-wide cervical cancer screening programme in 2004. There will also be pressure for laboratory accreditation and continue improvement in the quality of laboratory personnel related to this practice. In recent decades, an increased application of fine needle aspiration cytology, either performed in clinic or under radiological guidance, has been observed. Ancillary laboratory techniques such as immunohistochemistry and molecular biology have been increasingly applied to the practice of clinical cytology. There is thus a need in local and regional market for proper training and continued education of pathologists and technicians in the field of clinical cytopathology.	20	14 hrs	6 hrs	<b>Ms Eva CHAN</b> BSc; CMIAC, registered MLT part I in MLTB <b>Dr KW CHAN</b> MBBS HK; FRCPath; FHKCPath; FHKAM (Pathology) <b>Prof Annie NY CHEUNG</b> MBBS HK; MD HK; FRCPath; FHKCPPath; FIAC; FHKAM (Pathology) <b>Dr Robert J COLLINS</b> MBBS NSW; FRCPA; FHKCPath; FIAC; FHKAM (Pathology) <b>Dr Philp IP</b> MBChB Glasgow; MRCPPath; FHKCPath; FHKAM (Pathology) <b>Ms Betty LEUNG</b> MBA(TQM); CFIAC USA; AAIMS Aust; MASC Aust; MHKQMA; HKMLT(Part I) <b>Dr NG Wai Kuen</b> MBBS HK; FRCPA; FHKCPath; FHKAM (Pathology); FIAC <b>Ms Elaine SZETO</b> BSc in Biomedical Sciences; CFIAC <b>Dr KF TAM</b> MBBS, MRCOG, FHKAM (O&G), FHKCOG <b>Dr Eric TSE</b> BSc (Biomed Sc) HK; MBBS HK; PhD Cantab; MRCP UK <b>Dr Maria P WONG</b> MBBS HK; MD HK; FRCPath; FRCPA; FHKAM (Pathology); FHKCPath; FIAC; MRCP UK	14
