04056301	4 Sep 2006 to 27 Nov 2006	MMedSc Core Module: PATH6300 General Cytopathology (Total: 20 hrs)	Prof Annie NY CHEUNG	There is a universal demand in qualified laboratory personnel in cytopathology. In Hong Kong, such demand is accentuated by the implementation of the population-wide cervical cancer screening programme in 2004. There will also be pressure for laboratory accreditation and continue improvement in the quality of laboratory personnel related to this practice. In recent decades, an increased application of fine needle aspiration cytology, either performed in clinic or under radiological guidance, has been observed. Ancillary laboratory techniques such as immunohistochemistry and molecular biology have been increasingly applied to the practice of clinical cytology. There is thus a need in local and regional market for proper training and continued education of pathologists and technicians in the field of clinical cytopathology.	20		14 hrs	6 hrs	Ms Eva CHAN BSc; CMIAC, registered MLT part I in MLTB Dr KW CHAN MBBS HK; FRCPath; FHKCPath; FHKAM (Pathology) Prof Annie NY CHEUNG MBBS HK; MD HK; FRCPath; FHKCPPath; FIAC; FHKAM (Pathology) Dr Robert J COLLINS MBBS NSW; FRCPA; FHKCPath; FIAC; FHKAM (Pathology) Dr Philp IP MBChB Glasgow; MRCPPath; FHKCPath; FHKAM (Pathology) Ms Betty LEUNG MBA(TQM); CFIAC USA; AAIMS Aust; MASC Aust; MHKQMA; HKMLT(Part I) Dr NG Wai Kuen MBBS HK; FRCPA; FHKCPath; FHKAM (Pathology); FIAC Ms Elaine SZETO BSc in Biomedical Sciences; CFIAC Dr KF TAM MBBS, MRCOG, FHKAM (O&G), FHKCOG Dr Eric TSE BSc (Biomed Sc) HK; MBBS HK; PhD Cantab; MRCP UK Dr Maria P WONG MBBS HK; MD HK; FRCPath; FRCPA; FHKAM (Pathology); FHKCPath; FIAC; MRCP UK	17	90
