04076301	3 Sep 2007 to 19 Nov 2007	MMedSc Core Module: PATH6300 General Cytopathology (Total: 20 hrs)	Prof Annie NY CHEUNG	There is a universal demand in qualified laboratory personnel in cytopathology. In Hong Kong, such demand is accentuated by the implementation of the population-wide cervical cancer screening programme in 2004. There will also be pressure for laboratory accreditation and continue improvement in the quality of laboratory personnel related to this practice. In recent decades, an increased application of fine needle aspiration cytology, either performed in clinic or under radiological guidance, has been observed. Ancillary laboratory techniques such as immunohistochemistry and molecular biology have been increasingly applied to the practice of clinical cytology. There is thus a need in local and regional market for proper training and continued education of pathologists and technicians in the field of clinical cytopathology.	20	I	14 hrs	6 hrs	<b>Dr KW CHAN</b> MBBS HK; FRCPath; FHKCPath; FHKAM (Pathology) <b>Prof Annie NY CHEUNG</b> MBBS HK; MD HK; FRCPath; FHKCPPath; FIAC; FHKAM (Pathology) <b>Dr Philp IP</b> MBChB Glasgow; MRCPPath; FHKCPath; FHKAM (Pathology) <b>Dr KF TAM</b> MBBS, MRCOG, FHKAM (O&G), FHKCOG <b>Dr Maria P WONG</b> MBBS HK; MD HK; FRCPath; FRCPA; FHKAM (Pathology); FHKCPath; FIAC; MRCP UK <b>Dr Nancy YW Yuen</b> MBBS HK; FHKAM (Pathology) <b>Dr WM Ng</b> MBBS HK	15	180
